International Year of the Forest

11-05-10

This year is the United Nations International Year of the Forest, and since the Forest Light Series is a signature series of mine and widely collected, I am developing a series of works with different forests, hardwoods, softwoods and expanding my classic Canadian forests with a few tropical forests as well. Watch for some bamboo and maybe some palm trees. This painting, just finished, titled International Year of the Forest, Tribute I, is 48 x 84. It is currently on its way to Canada House in Banff.
